Kolibri Group acquires two service companies of the MEDION Group, completing its service portfolio

Cologne, August 3, 2026. Kolibri Beteiligung GmbH has entered into an agreement to acquire all shares in Allgemeine Multimedia Service GmbH and Medion Service GmbH, both based in Essen, Germany. For many years, the two companies have been providing customer service and administrative services for the MEDION Group. Completion of the transaction is expected shortly; the material closing requirements have already been satisfied. The parties have agreed not to disclose further details of the transaction.

The acquisition follows a clear strategic rationale: with the two companies, the Kolibri Group takes over well-established, highly specialised units for customer service, after-sales and administrative services – enabling the group to deliver the complete service portfolio for its customers, in full and from a single source. End-to-end responsibility across the entire service chain – from customer care through service and fulfilment processes to administrative functions – avoids interface losses, improves quality and speed, and sustainably strengthens the group's competitive position.

At the same time, the acquisition creates a platform to offer the acquired range of services to additional customers in the future, opening up further growth. The experienced teams of both companies will be retained in full; continuity of ongoing operations for all customers is assured. A long-term contractual cooperation has been agreed with the MEDION Group.
